HIGHLIGHTS/PROGRAMS OF SPECIAL DISTINCTION
- The St. Francis Heart Center is internationally acclaimed for its groundbreaking Emergency Heart Attack Response Team, a protocol that is saving lives and improving the quality of life for cardiac patients. The center is further recognized for its heart catheterizations, innovative surgical procedures, heart imaging scans and groundbreaking research and participation in clinical trials.
- The IBMT expands the oncology program at St. Francis and is one of only three full-service bone marrow transplant programs in Indiana.
- The St. Francis Weight Loss Center is an American Society for Metabolic & Bariatric Surgery Center of Excellence. The center offers medical and surgical treatments for obesity, including physician-supervised weight loss, LAP-BAND and Realize adjustable gastric bands, gastric bypass surgery, gastric sleeve surgery, weight management programs and StomaphyX procedures for previous gastric bypass patients.
- St. Francis is designated a Premier “Spirit of Women” Hospital, and the maternity program at Indianapolis has been recognized with the “Special Delivery Award” by the American Academy of Pediatrics.
- The HLA-Vascular Biology Laboratory at St. Francis is the site of groundbreaking science. Current research at the lab could lead to improved standards for the diagnosis of autoimmune diseases as well as new biomarkers for Alzheimer’s disease, and future risk assessments for cancer and diabetes.
- The Cancer Care Services program at St. Francis is robust and delivers to patients the latest treatments and technologies such as the highly regarded TomoTherapy. The program also has three nurse navigators specially trained to help guide patients from diagnosis throughout the treatment process.
- The St. Francis Sleep Disorders Center is fully accredited and serves patients suffering from sleep apnea, narcolepsy, insomnia and other less-common sleep disorders.
- The Franciscan Center for Integrative Health uses both conventional treatments, as well as “complementary” or “alternative”

continued on back
therapies to provide care for patients. Health and healing are based upon addressing the patients’ physical, mental, spiritual and emotional needs.

- The St. Francis Diabetes & Endocrinology Center treats adult patients with diabetes or endocrine disorders. The center offers an extensive list of diabetes education programs, recognized by the American Diabetes Association.
- The Franciscan Spine Center makes use of the latest technologies such as injection therapy and radiofrequency treatments to locate diagnose and treat the causes and symptoms of spinal pain. Physical therapy and behavior modification also are incorporated as effective components in patient care at the center.
- Diagnostic imaging includes CT, MRI (open and closed), heart diagnostics and the newest HeartCheck Plug scanning technologies.

HOSPITAL-OWNED MEDICAL PRACTICES AND PROGRAMS
- St. Francis Health Network coordinates the medical care of more than 40,000 patients with 400 physicians and ancillary providers.
- St. Francis Medical Group is an association of more than 70 physicians representing a variety of specialties and who have partnered with St. Francis Hospital to provide care to patients in Indianapolis and south-central Indiana.
- St. Francis Sports Medicine Clinic programs prevention and treatment of acute and chronic sports-related injuries.
- St. Francis Occupational Health Center provides OSHA physicals, drug screenings, flu vaccinations and much more to local employers.
- The Inn at St. Francis at the Indianapolis campus is a full-service hotel, offering reasonable rates and excellent accommodations to families of patients, visitors and the public.

CHARITY CARE/SOCIAL RESPONSIBILITY/COMMUNITY COMMITMENT
- The St. Francis Neighborhood Health Center, located in the Garfield Park neighborhood near St. Francis Hospital-Beech Grove, was established in a medically underserved, medical professional shortage area, in 1997. NHC’s primary focus is to help patients identify a “medical home,” and improve primary health-care access for them through community financial assistance programs. No patient is turned away because he or she cannot pay for care.
- St. Francis has a long-standing Parish Nurse program with 28 Parish Nurses. Six of them supported from the St. Francis Hospital-Mooresville campus. The Parish Nurse program operates in the five counties of Morgan, Marion, Johnson, Putman and Decatur.
- As a way to serve older adults in south-central Indiana, St. Francis started its Senior Promise program in 1987, serving more than 8,000 members at the Indianapolis, Mooresville and Beech Grove campuses.
- St. Francis sponsors numerous community health activities including the Mini Marathon, Indianapolis Monumental Marathon, Susan G. Komen Race for the Cure, St. Francis Soccer Alliance and the “Docs versus Jocks versus Drugs” annual basketball game.
- St. Francis offers a variety of health and wellness programs to the Indiana and south-central Indiana communities. Health fairs are conducted annually at events with high traffic volume such as Indiana Black Expo.
- Center of Hope offers hope for sexual assault victims, who receive medical and legal assistance in a private, quiet and compassionate environment. The program allows the sexual assault victim and his or her support persons to focus one-on-one.
- St. Francis supports anti-smoking legislation and offers tobacco cessation classes on an ongoing basis.
In April 2008, St. Francis Hospital-Mooresville completed a $42 million expansion project to meet the growing needs of health services to people of Morgan County and surrounding area.

MAJOR SERVICE LINES
- Orthopedics
- Colon and rectal services
- Cancer center
- Emergency services
- Rheumatology
- Sports medicine
- Women’s services
- Physical therapy and aqua therapy
- Sleep Disorders Center
- Diagnostics and imaging
- Outpatient surgery center

HIGHLIGHTS/PROGRAMS OF SPECIAL DISTINCTION
- Orthopedics: The Center for Hip & Knee Surgery at St. Francis Hospital—Mooresville is ranked consistently among the top joint replacement centers in the nation. The Center has received 5 stars in hip & knee surgery for nine consecutive years and has been ranked number one in the state of Indiana for joint replacement outcomes by HealthGrades, the leading health care ratings organization, for 2007, 2008, 2009. Patients come from all 50 states and from around the world.
- Obstetrics and Delivery: Cherished Beginnings, the labor and delivery center for the hospital, continues to serve the three-county area with beautifully appointed labor, delivery, recovery and post-partum (LDRP) care rooms, along with a state-of-the-art newborn nursery. Outstanding staff and physicians help to create a wonderfully, supportive bonding environment the mother, baby and family. Prenatal classes, lactation education and specialized physical therapy are all available.
- Sleep Disorders Center: Providing a comprehensive sleep lab with expertise in pulmonology and neurology.
- Colon and Rectal Care: Generations of families have relied on the center for colon and rectal care for specialized diagnoses and treatment of diseases; laparoscopic and general surgery.
- The hospital recently partnered with the Indiana University School of Medicine to establish the state’s first colon and rectal surgical fellowship and training program.
Emergency Services: A new 24-hour-a-day, seven-days-a-week, emergency department opened Fall 2008.

As part of its recently completed expansion project, the hospital now operates the only emergency department in northern Morgan County, which serving communities in three neighboring counties.

HOSPITAL-OWNED MEDICAL PRACTICES AND PROGRAMS

- Emergency services and PromptMed
- 34-bed orthopedic inpatient unit
- A 26-bed adult medical-surgical inpatient unit;
- An eight-bed intensive care unit
- An on-site office for Indiana Heart Physicians for expanded cardiac services
- Six new surgical suites
- MRI diagnostic center

PLAINFIELD HEALTH CENTER

Location: 315 N. Dan Jones Road, Plainfield, IN 46168
Telephone: 317-837-4700

The Plainfield Health Center is a freestanding medical office center that features: primary care physicians, podiatry, physical therapy, occupational health, imaging and lab services.

CHARITY CARE/SOCIAL RESPONSIBILITY/COMMUNITY COMMITMENT

- St. Thomas More Clinic serves Morgan County residents who do not have health insurance and are not on Medicaid or Medicare. Thanks to the financial assistance offered by St. Francis Hospital-Mooresville, the Kendrick Foundation, churches and other charitable organizations, an increasing number of patients visit the clinic each year.

- Annually, the St. Francis staff offers volunteer support to a variety of groups and organizations in Morgan County, including the local Safe Kids program, Habitat for Humanity, Healthier Morgan County Initiative and the interdenominational group, Churches-in-Mission, which provides food, clothing and other items to the needy in the community.

- The hospital partners with local elementary, middle and high schools to provide health education, drug prevention programs and career information. Internships are offered annually to area high school students pursuing health care careers.

- Free meeting space is available to numerous not-for-profit and civic groups.

- St. Francis participates in “Old Settlers’ Days” and supports numerous community events in the area such as Relay for Life and Light the Night.
